The simplest data query?

```
GET /lists
{
  lists {
    id
    items {
      id
      what
      when
      byWho {
        id
        name
      }
    }
  }
}
```

The simplest data query?

```
POST /the-api
{
  lists {
    id
    items {
      id
      what
      when
      byWho {
        id
        name
      }
    }
  }
}
```
